A Force for Promoting and Improving Health and Wellbeing

Request for GP Health Record

I _____ have recently applied for the physiotherapy programme at The Police Treatment Centres. To progress my application, I require further clinical information.

The Police Treatment Centre's clinical team assess each patient's application prior to accepting them on the programme to receive treatment. To ensure each patient is appropriate for the programme, they ask that patients provide a brief medical history, including significant past medical history, current medications and any clinical letters that may be relevant to this episode of care and application. This is not a request for my full medical record, just a brief summary.

Please email my GP Health Record to my email address: _____

The Police Treatment Centres is a registered charity providing first class residential rehabilitation facilities. The aim of the physiotherapy programme is to provide serving and retired officers with tailored intensive physiotherapy, exercise classes, educational workshop and access to class leading facilities such as hydrotherapy, gym (including spin studio and alter g treadmills), swimming pools, sensory gardens and more.

Kind regards,

Patient Name _____
Patient Date of Birth ____/____/____
Patient NHS Number if Known _____
Patient Home Address including Postcode _____
Date ____/____/____
