### INFORMATION FOR RETIRED OFFICERS & OFFICERS APPROACHING RETIREMENT

The Police Treatment Centres (PTC) continues to welcome Retired Officers for treatment at our centres in Harrogate and Auchterarder. Both of our Centres have significantly improved over the last two years and the standard and quality of the treatment and facilities are better than ever. We continue to value retired officers at the PTC and in 2016 we treated 340 retirees on a residential basis at our Centres.

The PTC Board of Trustees directed on 1st August 2015 that if Retired Officers wish to access free treatment at the Police Treatment Centres (PTC) from 1st January 2016 that they must be signed up to the PTC as a current donor. The donation rate is set at £0.65p per week representing excellent value for money and once admitted for treatment at either of our two centres you would be able to access our superb state of the art facilities and treatment free of charge.

If you spent the majority of your police service in one of the PTC constituent forces, you are eligible to become a PTC donor and beneficiary, so please sign up by direct debit for only £0.65 per week to take advantage of our facilities. Please note that you should ensure that you sign up as soon as possible once your retirement begins otherwise a 12 month waiting time applies before you could apply or come for treatment.

**What Now?** To sign up please complete both pages of the form enclosed and return it to St Andrews The direct debit form shows the minimum donation required but there is also the opportunity to donate a larger sum of money to give additional support to our work. Once your direct debit is confirmed, you will then be eligible to apply for free treatment at the PTC, subject to our clinical criteria and eligibility policy.

We do hope that you will continue to support us in retirement and we thank you in advance for helping us to continue providing the class-leading treatment which makes a real difference to the professional and personal lives of all our police family patients.

*Yours sincerely*
